Lynn Trujillo
Cabinet Secretary

Nadine Padilla
Deputy Cabinet Secretary

July 31, 2020

Greetings Honorable Tribal Leaders,

As you prepare to reopen tribal government operations and tribal businesses, the New Mexico Indian Affairs Department would like to provide you with resources to answer some commonly asked questions pertaining to reopening in light of the COVID-19 pandemic.

I would like to acknowledge our partners who have helped create the documents below. The Economic Recovery Council's Tribal Gaming Subcommittee was instrumental in drafting the COVID-Safe Practices for Tribal Gaming Operations. From this Subcommittee, we formed a smaller workgroup to support the development of the Rapid Response Checklist. To clarify, these documents do not mandate or require certain action of tribal governments, rather they offer guidance and should be treated as a resource outlining steps to consider when engaged in rapid response.

It is my hope that the documents below support you as you make decisions on behalf of your community.

- NM Economic Recovery Council's Tribal Gaming Operations Subcommittee COVID-Safe Practices for Tribal Gaming Operations.
- Recommended Guidance for Tribal Rapid Response to one or more COVID-19 Positive Cases at a Tribal Business, Facility, or Enterprise
- Rapid Response Checklist for Tribal Business/Facility in Response to one or more COVID-19 Positive Employee(s) in the Workplace
- Checklist for Tribal Rapid Response to Outbreak of COVID-19 Positive Individuals in the Community

Respectfully,

Lynn Trujillo, Cabinet Secretary
NM Indian Affairs Department

Tribal Gaming Operations Subcommittee COVID-Safe Practices

1. Sector: Tribal Gaming Operations

- 2. Purpose Statement:** COVID-Safe Practices (“CSPs”) guide businesses on how to safely resume operations amid the ongoing COVID-19 public health emergency. CSPs help to minimize the risk of COVID-19 transmission between customers and employees. CSPs will play a key role in minimizing the spread of COVID-19 and will also give New Mexicans the confidence to return to work and to retail environments as the economy reopens.

The Tribal Gaming Operations Subcommittee has identified COVID-Safe Procedures (CSP) for the tribal gaming industry based on CDC, OSHA, and industry best practices to ensure the safe reopening of tribal gaming businesses in New Mexico.

The CSP’s below provide guidance for tribal gaming operations. The subcommittee acknowledges and respects tribal sovereignty and hopes that the recommendations listed below will be considered for adoption by tribal governments and their gaming operations.

3. COVID-Safe Practices

a. COVID-Safe Practices for Customers

i. Screening/Face Masks/Social Distancing

1. Every patron entering the facility should wear a face mask.
2. Consider incorporating daily pre-screening apps to give a report of symptoms or possible exposure, which will lead to early detection of outbreak.
3. Consider non-invasive temperature check (Infrared thermal sensors at the wrist, kiosk, hand-held temperature check, etc.). Thermal camera temperature readings may produce inaccuracies due to NM’s summer heat.
4. Patrons will be advised to practice social distancing by maintaining a safe distance from others (at least six feet) when standing in line, waiting for elevators and moving around the property.

b. COVID-Safe Practices for Employers

i. Operational Changes

1. Maintain social distancing standards, occupancy to not exceed fifty percent (50%) limit assigned to each gaming area of the property by local building and fire codes.
2. Consider limiting the number of active gaming tables and slot machines to ensure appropriate distancing.
3. Consider rearranging machines to maintain distance between patrons.

4. Develop a foot traffic plan in compliance with fire codes for visitors.
5. Reduce and limit the number of entrances/exits (to ensure customers have been pre-screened and accurately temperature-checked), main doors should be propped open where relevant and safe, and if possible explore the possibility of one way in, one way out for entrances and exits.
6. Where appropriate, consider the installation of plexiglass to minimize face-to-face contact between employees and patrons.
7. Post signage with health and hygiene reminders at entrances/exits and throughout the property including the proper way to wear, handle and dispose of masks and face coverings.
8. Set up hand sanitizing stations at various locations throughout the facility.
9. Establish cleaning protocols by department, including office spaces. (Refer to office and call center subcommittee protocol for office space recommendations.)

ii. Employee Health and Training

1. Screen and temperature check employees before they enter the workplace each day (verbally or with a written form or app). Log the results daily. Send employees home who are experiencing the following COVID-19 symptoms related to COVID-19 and direct them to obtain testing.
 - a. Fever, cough, shortness of breath, chills, repeated shaking with chills, muscle pain, headache, sore throat and/or loss of taste or smell.
2. If an employee tests positive for COVID-19, inform co-workers of the possible exposure but maintain confidentiality as required by the Americans with Disabilities Act (ADA).
3. Prohibit employees who had known close contact with a positive person from returning to work until the end of the 14-day self-isolation period.
4. Employees should receive COVID-19 safety and sanitation training.
5. Training for employees on how to recognize symptoms of COVID-19.
6. Training for security staff on how to respond/handle patrons who may have COVID.
7. Training on how to properly use and dispose of PPE.

iii. Required PPE for Employees

1. Appropriate PPE to be worn by all employees based on their role and responsibilities and in adherence to tribal, state or local regulations and guidance.
2. Every employee entering the casino will be provided a mask and may be required to wear that mask while on the property depending on social distancing guidelines and physical contact with patrons.

3. Gloves to be provided to employees as determined by medical experts; including but not limited to, housekeeping, public area attendants, and security officers in direct contact with patrons.
 4. All PPE should be compliant with Tribal Gaming Regulatory Authority policies.
 5. Employee dining areas should comply with Food Service/Restaurant subcommittee recommendations.
- iv. Hand Washing Protocol
1. Employees should be instructed to wash their hands frequently, or use hand sanitizer when a sink is not available and after any of the following activities: using the restroom, sneezing, touching the face, blowing the nose, cleaning, sweeping, mopping, smoking, eating, drinking, entering and leaving the gaming floor, going on break and before or after starting a shift.
 2. Make hand washing, sanitizer, and other hygiene support available to employees
- v. Cleaning and Disinfecting
1. Confirm that the facility's cleaning agents are effective in eliminating COVID-19. Agents must be left on surfaces for sufficient time to be effective per the agent's instructions.
 2. Clean and disinfect frequently in high traffic areas, including the back of house, dining rooms, employee entrances, uniform control rooms, employee restrooms, loading docks, offices, kitchens, security scanning podiums, Employee Relations service desks and training classrooms.
 3. All point of sale terminals should be disinfected between uses and after each shift.
 4. Clean devices and chairs after use.
 5. Tools and equipment shared by employees will be disinfected before, during, and after each shift, or anytime the equipment is transferred to a different employee. This includes, without limitation, phones, radios, computers, other communication devices, payment terminals, engineering tools, safety buttons, folios, cleaning equipment, keys, time clocks, and all other direct contact items used by employees throughout the property.
 6. Laundry to be cleaned in accordance with CDC guidelines.
- vi. Daily Team Meetings
1. If you hold pre-shift meetings they should be conducted virtually or in areas that allow for appropriate physical distancing.
 2. Share COVID-19 tips/guidance during pre-shift meetings.
 3. Larger departments should stagger employee arrival times to minimize traffic volume in back of house corridors and service elevators.

c. Guest Services

i. Guest Arrival- Valet Services, Ride Sharing, Taxis

1. Suspend valet services.
2. Shuttle services should reduce the number of guests permitted per ride.
3. Entrances and exits will be propped open, automatically open, or operated manually by employees.
4. Employees will not open the doors of cars or taxis.
5. Guests requesting bell service will be assisted, and the bell cart will be disinfected after each guest is assisted.

ii. Players Club

1. Employees to wear masks and gloves.
2. Consider installing Plexiglass at counters.
3. Clean and sanitize kiosks and countertops on a regular basis.
4. Regular sanitizing should occur at common touch points including but not limited to – computer equipment, chairs, offices supplies, etc.
5. Floor tape to denote social distancing protocol.
6. Found or abandoned club cards to be disposed or destroyed.

iii. Cocktail/Food Services

1. Refer to the Food Service/Restaurant subcommittee for food service recommendations.

ci. Money Transactions/Handling

i. Casino Cage

1. Casino chips to be disinfected daily before distribution to the gaming floor, upon return to the cashier, or upon return from the gaming floor.
2. Guest facing counters to be disinfected at least once per hour.
3. Install plexiglass at the cage windows.

ii. Drop/Count

1. Employees to wear masks and gloves.
2. Comply with social distancing protocol during key issuance, drop and count process.
3. End-of-shift sanitizing should occur at common touch points including but not limited to – keys, counters, doors, count/computer equipment, chairs, etc.
4. Sanitizing of machines should occur after Drop Team vacates floor section.

cii. Tribal Gaming Operations

i. Chip/Card/Dice Handling

1. Games such as blackjack and baccarat, can be dealt in a “face-up” manner where only the dealer touches the cards.
 2. Dice to be sanitized after every shooter (seven-out).
 3. Recommend that customers wear disposable gloves provided at each table.
- ii. Table Games
1. Consider decreasing the number of seats at each table to comply with proper social distancing guidelines.
 2. Disinfect table game rails after each guest leaves a game. Dealer to disinfect the on/off button when entering a game
 3. Dealer to disinfect the exterior of the card shoe when entering a game and the interior of the card shoe when the game goes dead.
 4. Disinfect the outside of shufflers frequently; inside to be disinfected once per week.
- iii. Sports Book
1. Employees to wear masks and gloves.
 2. Consider installing plexiglass at counters.
 3. Clean and sanitize kiosks and countertops on a regular basis.
 4. Floor tape to denote 6-foot social distancing protocol.
- iv. Slot Machines
1. Slot machine banks will be partially turned off necessary to achieve proper social distancing and force a separation between players and remove chairs from slot machines that are not in use.
 2. Slots to be disinfected on an ongoing basis.
 3. Employees to wipe down slot machines upon servicing and by patron request.
 4. Consider rearranging slot machines to maintain proper social distancing between patrons.
- v. Poker Operations
1. Disinfect table game rails after each customer leaves (ongoing).
 2. Disinfect each chair area after a customer leaves (ongoing).
 3. Disinfect the outside of shufflers every hour; inside to be cleaned once per week.
 4. Disinfect podiums at least once per hour including phones, computers, Veridocs, all hard surface and cabinetry.
 5. Disinfect table rating units each time they enter a game.
 6. Arrange seating to maintain proper social distancing between patrons.
- f. Hotel Operations: Refer to the Hotels and Resorts subcommittee’s recommendations.
- g. Entertainment (Concerts, Conventions, and Major Events): Refer to the Festivals, Fairs, and Other Major Events subcommittee’s recommendations.

- h. Food and Beverage: Refer to the Food Service/Restaurant subcommittee's recommendations.

Rapid Response Checklist for Tribal Business/Facility in Response to one or more COVID-19 Positive Employee(s) in the Workplace

Business Name: _____

Date that business/facility was notified of positive case(s): _____

If there is a positive case within your business/facility, the following actions are recommended:

- Notify the appropriate authorities, including:
 - Tribal leadership
 - Tribal emergency management
 - State Health Department
 - IHS/other healthcare provider

- Consider the following immediate actions:
 - Shut down business operations (if appropriate)
 - Block off areas where the positive employee worked
 - Send employees home who may have been in close proximity to positive employee with quarantine instructions
 - Set up testing (as recommended by DOH or other healthcare professional) for employees that were in close proximity with positive employee
 - If documentation has been kept for contact tracing purposes, contact guests who may have been exposed

- Disinfect the workplace/facility after 24 hours and follow guidelines in the following sources:
 - NM COVID-19 Safe Practices for Individuals and Employers* handbook¹
 - CDC Guidelines²

¹ NM Department of Health: <https://cv.nmhealth.org/covid-safe-practices/>

² Center for Disease Control: <https://www.cdc.gov/coronavirus/2019-ncov/community/general-business-faq.html#Suspected-or-Confirmed-Cases-of-COVID-19-in-the-Workplace>

- Highly encourage businesses to set up testing for employees, especially those who have had contact with a positive employee.
- Disinfect the area after 24 hours in accordance with CDC guidelines, ensure that employees disinfecting the area have necessary Personal Protective Equipment (PPE).
- Implement industry-specific employee safety guidance, recommended source:
 - NM COVID-19 Safe Practices for Individuals and Employers* handbook
- Develop return to work strategy that includes one of the CDC guidelines listed below. (*Note: these guidelines were originally directed to healthcare providers and are organized from least stringent to most stringent*)
 - Symptom-based method, cannot return to work until:
 - At least 3 days (72 hours) have passed *since recovery*, meaning no fever (without the use of fever-reducing medications such as Ibuprofen or Tylenol); **and**
 - Improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**,
 - At least 10 days have passed *since symptoms first appeared*
 - Time-based strategy:
 - You must stay in isolation until 10 days have passed since the date of your first positive COVID-19 test.
 - If you develop symptoms *after* the COVID-19 test, then you will have to switch to the symptom-based method.
 - 2 negative tests, taken 24 hours apart
 - No fever (without the use of fever-reducing medications such as Ibuprofen or Tylenol)
 - Cough and shortness of breath has improved
 - You must have two swab tests performed 24 hours apart with negative results.

**Checklist for Tribal Rapid Response to Outbreak of COVID-19 Positive Individuals
in the Community**

Name of Tribal Nation: _____

Date of notification of COVID-19 outbreak: _____

Upon learning of outbreak or increased numbers of positive cases, please take the following precautions immediately:

1. Confirmed COVID-19 Cases/Contact tracing:

- Notify the appropriate authorities of the outbreak:
 - Tribal leadership
 - Tribal emergency management
 - IHS/other healthcare provider
- Notify NMDOH to report the outbreak and request testing: contact Aja Sanzone, Medical Director, NMDOH Infectious Disease Bureau, 917-582-6241, Aja.Sanzone@state.nm.us.
- Advise tribal members who have tested positive to stay home except to get medical care.
 - If they experience trouble breathing; persistent pain or pressure in the chest; new confusion; inability to wake or stay awake; and/or blueish lips or face, call ahead to your local emergency facility or the COVID-19 Hotline at 1-855-600-3453.
- Begin contact tracing procedures.
 - Identify tribal community members who the individual had been in contact with and alert them of the positive test.
 - Advise tribal members who have had close contact with a person diagnosed with COVID-19 to get tested as soon as possible; self-isolate for 14 days (upon contact date); self-monitor for symptoms (i.e. fever, cough, etc.); follow [CDC guidance](#) if symptoms develop; and seek medical care if experience emergency symptoms.

- Identify tribal offices, businesses and other entities where the positive individual(s) had visited and alert them of the positive test. If appropriate, offices, businesses, or other facilities should immediately cease operations and alert those that have come in close contact with person that tested positive with instructions to quarantine.
- Disinfect facilities as appropriate, recommended source: the *New Mexico COVID-19 Safe Practices for Individuals and Employers* handbook

2. Next Steps following Initial Tribal Community Testing

- All identified persons that were in close contact with positive tested person should be provided with information for COVID testing and should be instructed about how to quarantine and self-isolate. Contact NMDOH Public Health Division.
- Develop strategies for returning to work and guidance on when it is safe to be around others that includes one of the CDC guidelines listed below.
 - Symptom-based method, cannot return to work or be around others until:
 - At least 3 days (72 hours) have passed *since recovery*, meaning no fever (without the use of fever-reducing medications such as Ibuprofen or Tylenol); **and**
 - Improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**,
 - At least 10 days have passed *since symptoms first appeared*
 - Time-based strategy:
 - You must stay in isolation until 10 days have passed since the date of your first positive COVID-19 test.
 - If you develop symptoms *after* the COVID-19 test, then you will have to switch to the symptom-based method.
 - Two negative tests, taken 24 hours apart:
 - No fever (without the use of fever-reducing medications such as Ibuprofen or Tylenol)
 - Cough and shortness of breath has improved
 - You must have two swab tests performed 24 hours apart with negative results.

3. Long-term Community Needs

- Tribal leadership should consider the following mitigation policies:
 - Lockdown of tribal nation;
 - Daily and/or weekend curfews;

- Establish tribal checkpoints;
 - Issue guidance on community gatherings:
 - Consider enforcement of public health orders
- If your tribe is in need of food, water, PPE, or other supplies, please contact NM Emergency Operation Command Center (EOC) Tribal Liaisons Kalee Salazar and Fenicia Ross at DHSEM.TribalLiaison@state.nm.us to obtain appropriate form(s) and field any questions. The designated tribal Emergency Manager of your Nation/Tribe/Pueblo should have access to submit forms via the WebEOC platform.
- If your tribe is in need of alternative housing options, see options below:
 - For alternative housing for First Responders, should they test positive, please reach out to the EOC first at (505) 476-9635. The EOC can reach out to the sheltering line on your behalf or you can contact the ESF-6 Shelter Hotline 1-833-415-0495.
 - For isolation unit coordination assistance, please contact the ESF-6 call center at 1-833-415-0495 this line is operational ESF6 call center hours are 9am to 5pm Monday to Friday, this line should be used for sheltering assistance or for transportation assistance to shelters.
 - In the event ESF-6 is not able to provide isolation assistance please reach out to Tribal Liaisons at the EOC who will assist by identifying alternative solutions.
